Safety Covers.

# Winter Cover vs Safety Cover

## Kids Will Be Kids

Let us provide you with the "peace of mind" that you can count on.

Your standard Winter Cover is no more than a tarp held down with water tubes, providing little to no protection from accidental intrusion of children or stray animals.

A GLI Safety Cover is the safe solution for any home owner. Not only will your backyard look great, but installation is easy and the peace of mind that you will carry through-out the winter months is well worth the investment.

# Choose the Cover That's Right For You...

<b>TAKE THIS TEST &amp; CHOOSE THE COVER THAT'S RIGHT FOR YOU!</b>	Yes	 ProMesh® Mesh	 HyPerLite™ Solid	Secur-A-Pool® Mesh
I open & close my pool by myself and need a lightweight cover.		✓	✓	✓
<b>I open my pool in:</b>				
Early Spring		✓	✓	✓
Mid Spring		✓	✓	
Late Spring			✓	
<b>My backyard has:</b>				
Small amount of trees, leaves and debris.		✓	✓	✓
Moderate amount of trees, leaves and debris.		✓	✓	
A lot of trees, leaves and debris.			✓	
<b>Cover Strength:</b>				
I need a cover to protect against accidental intrusion by children, pets and stray animals.		✓	✓	✓
I need MAXIMUM puncture resistance to help protect against falling tree limbs, deer hooves, etc.		✓	✓	
<b>Standards:</b>				
A cover that meets or exceeds ASTM standards - ASTM F 1346-91.		✓	✓	✓

# Like having a full-time LIFEGUARD for your pool.

## ProMesh® Safety Cover

...if you open your pool in mid-spring and are looking for the benefits of a solid safety cover without the weight associated with it - this is the cover for you!

- Blocks sun like a solid cover - **No springtime algae growth.**
- Made from a **unique weave of polypropylene mesh** that blocks out algae producing UV Rays. Keeping sunlight out ensures that you will open to cleaner water in the spring.
- Secures pool from children, pets and stray animals.
- **Nearly 50% lighter than solid covers** for easier installation, removal and storage.

- **Nearly 75% more tensile strength** than competitor's standard mesh!
- **Custom ProMesh Covers comes standard** with Commercial Grade Springs - **A \$125 value!**
- **15 Year Limited Warranty.**
- **Meets or exceeds ASTM standards - as set forth in ASTM F 1346-91.**

## HyPerLite™ Solid Safety Cover

...if you open your pool in the late spring, have large amounts of leaves and debris in the yard and available - this is the cover for you!

- **PVC coated polyester fabric is 30% lighter** than standard solid covers.
- **50% more puncture resistant!**
- **100% Sunlight Blockage - NO spring time algae growth.**
- Comes with **patented "Kleen-Screen" drain** (drains water from surface filtering out dirt, leaves and debris)
- Secures pool from children, pets and stray animals.

- **Also available with Sure-Flo™ full length drain!** Pump is available in lieu of drain.
- **Custom HyPerLite Covers come standard with Commercial Grade Springs - A \$125 value!**
- **15 Year Limited Warranty.**
- **Meets or exceeds ASTM standards - as set forth in ASTM F 1346-91.**

## Secur-A-Pool® Mesh Safety Cover

...if you open early in the spring, don't have large amounts of leaves and debris in your yard, or you don't fully winterize your pool but need the security of a safety cover - this is the cover for you!

- New and improved - **Increased weave count for added strength & shading.**
- **Light weight Polypropylene Mesh** for easy installation and removal.
- **Mesh material eliminates standing water hazard** by allowing water and melting snow to drain through.
- **Screens out dirt and debris** for easy spring time opening.

- **Tamperproof design** prevents entry without installation rod - installs and removes in minutes.
- **Improves the look** of your pool in the off season.
- Secures pool from children, pets and stray animals.
- **12 Year Limited Warranty.**
- **Meets or exceeds ASTM standards - as set forth in ASTM F 1346-91.**

# Maximize Your Protection

■ All covers are manufactured with the finest materials - using premium UV inhibitors to protect against damage from the sun and pool chemicals... protecting you and your investment year after year.

■ All covers are constructed with heavy duty polypropylene webbing and UV treated polyester thread. Strong enough to support the accidental intrusion of a stray animal or even a small car.

■ Secur-A-Gap™ provides your cover with the perfect fit around protruding pool elements such as rock features and waterfalls without the loss of security that your safety cover provides.

■ GLI has the solution for everything. With standard pools being a thing of the past, GLI has crafted solutions like wall mount anchors to make covering even the oddest shapes and edges possible.

■ Experiencing excessive wear to your cover? Protect-A-Cover™ padding is the ideal solution and can be easily added to any existing cover. Comes with clips to be easily attached to the underside of the Safety Cover, ensuring the padding stays in place all winter long.

## Safety Cover Hardware

■ New for 2016 - Step Guard™. Tired of debris entering the pool around steps and other features that can cause gaps in the Safety Cover? Then you need GLI's New Step Guard™. This new wedge design is an anchored down flap, providing you with a safer, cleaner swimming pool.

■ Shown above is the HD (Heavy Duty) D-Ring Spring, the Standard (8") D-Ring Spring and the Small (5") D-Ring Spring; each spring is made from sturdy, stainless steel. The attached D-Ring makes for easy adjustments and is used to secure the straps of the safety cover to the anchoring system.

■ Raised Wall Cable Kit - Comes with everything needed to anchor into a raised wall or rock formation.

■ 9" Paver Tubes - Ideal for loose fitting patio pavers. Comes with brass anchor pre-installed.

■ 2" Brass Anchors - Ideal for resurfaced decks that need longer anchors and are available in lieu of standard anchors.

## Solid Cover Drain Options:

### SURE-FLO™ FULL LENGTH DRAIN

■ The Sure-Flo™ drain is created using ProMesh fabric that runs the full length of the pool, down the center of the cover, increasing the surface drainage area while blocking sunlight, dirt and debris from getting into your pool. The "Sure-Flo" drain option is ideal for custom shape pools or larger rectangles.

### KLEEN-SCREEN® DRAIN

■ The patented Kleen-Screen® drain filters dirt particles (as small as talcum powder) and still allows water to drain through, ensuring a safe pool in the off season and a CLEAN pool on opening day! Comes standard with Solid Safety Covers.

### PUMP AVAILABLE

■ Prefer a pump in lieu of a drain? GLI offers Little Giant pumps as an alternative to our Sure-Flo™ & Kleen-Screen® Drain systems.
